

## **Pro-Life Election Prayer**

Almighty God, I worship you as my Creator and the Creator of all that is seen and unseen. All glory and honor is Yours.

Creator of human life, we thank you for the tremendous blessings you have bestowed upon our country through the talents of our fellow Americans who do not believe in the Communist and atheistic philosophy that the end justifies the means.

Have mercy on our nation. Stay Your hand of justice, which we surely deserve for the destruction of life that is taking place daily as we pray for the over 3,000 helpless human beings who will be aborted today.

Have mercy on us as unknown numbers of people die the excruciating death of forced dehydration as hospice and other caregivers routinely stop hydration. Enlighten the families of those without hydration that their loved one has been thrown into a nonresponsive state that prevents them from expressing their excruciating pain.

Have mercy on us, for the law of our land has allowed over 50 million legalized abortions since 1973 when the Supreme Court legislated legal abortion, for all 9 months of pregnancy, for any reason.

Turn around the success that the National Association for the Repeal of Abortion Laws has had, since 1965, in convincing Americans that it is not a scientific fact the woman's unborn is a human being, but a religious philosophy which can be debated. Have mercy on those who use religious prejudice for financial gain.

Let it be known that it was the Food and Drug Administration and not science that redefined conception in 1970 from fertilization to implantation for the profitability of drug companies to sell contraceptives that harden the wall of the uterus to prevent implantation. Have mercy on us for the myriad of embryos that have died from purposely not being able to implant in the womb due to these contraceptives.

We pray for those involved in destructive embryonic stem cell research where an embryo is destroyed to obtain the embryonic stem cells. We pray for nondestructive stem cell research to be successful.

We pray for the election of a President, governors, legislatures, and judges, who will not be pulled in by the potential hype of destructive embryonic stem cell research, but instead, stop state funding and prevent federal funding of immoral embryonic stem cell research and cloning.

We pray for the election of a President, governors, legislatures, and judges, who will stop our tax moneys from going to Planned Parenthood, the number one abortion company in America.

We pray for the election of a President, governors, legislatures, and judges, who will help us get the laws in place to protect humanity as countless embryos die due to biomedical "advances" and research.

We implore You to affect the minds and hearts of voters to vote for the candidates who You know are the best to lead our country out of this disregard for the sanctity of all human life. Please remember your words ...

"If my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then will I hear from heaven and will forgive their sin and will heal their land."

2-Chronicles 7:14
